

BABY AILMENTS
Are easily corrected, but they get serious very quickly if neglected. The trouble is always in the stomach or bowels.

**McGEE'S
BABY ELIXIR**
Is a Fine Medicated Syrup for All Stomach or Bowel Disorders.

Mothers who have used it praise it highly for its excellent corrective effect. It quiets a cross, feverish baby in a few minutes, helps the stomach to digest food, checks looseness of the bowels and relieves colic, pain. Contains no opium, morphine or any other harmful drug. It can be given as long and as freely as desired, as it does nothing but good.

Lean, sickly babies thrive and grow fat under its beneficial influence.

Price 50c per Bottle.

LOCAL BRIEFS

Miss Mary Ridings returned Monday from a visit with relatives in Kansas City.

Dr. M. G. Roberts went to Kansas City Tuesday morning on professional business.

Mrs. L. D. S. Patton arrived Monday evening from St. Louis for a visit here with the family of Dr. J. J. Fulkerson.

Dr. J. E. Tucker went to Higginsville Tuesday on professional business.

E. M. Tarbunan went to Kansas City Tuesday to spend the day on business.

E. B. Vaughan and son, Edwin, went to Kansas City Tuesday to spend the day.

Frank Howe went to Kansas City Tuesday to spend the day on business.

Saved His Wife's Life.

"My wife would have been in her grave today," writes O. H. Brown of Muscadine, Ala., "if I had not used your New Discovery." She was down without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in a short time.

Infalible for coughs and colds, its the most reliable remedy on earth for desperate lung trouble, hemorrhages, lagrippe, asthma, hay fever, croup and whopping cough. 50c, \$1.00. Trial bottle free. Guaranteed by Crenshaw & Young.

Miss Delia Yates went to City Wednesday to spend the day.

Mrs. J. Reid Ryland went to Kansas City Wednesday for a few days' visit.

Lightning Kills Few.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used as Robert Madsen of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50 cents at Crenshaw & Young.

Capt. Ryland Todhunter was in Higginsville Wednesday.

Dr. J. L. L. G., and Miss Alice Peak went to Kansas City Wednesday to spend the day.

Frank Hoefer went to Kansas City Wednesday to spend the day on business.

Venable has an elegant assortment of jewelry. Come and look his stock over, get his prices, he will convince you, and the goods and prices will speak for themselves.

Christmas Chocolate.

The Ladies Aid Society of the Presbyterian Church will hold a Christmas market at the home of Mrs. Nannie Steele on Main street Saturday afternoon from 2 to 6. Chocolate and sandwiches will be served. Come and bring your friends.

Scientific American.

A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms: \$5 a year, four months, \$2. Sold by all newsdealers.

MUNN & Co 361 Broadway, New York
Branch Office, 625 F St., Washington, D. C.

**The Coughs
of Children**

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.

Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

Made by the J. C. AYER CO., Lowell, Mass.

Capt. J. Q. Plattenburg left Wednesday on a business trip to St. Louis.

Mrs. Richard Johnson returned Tuesday from a visit in Kansas City.

Miss Nancy Lee Goodman left Tuesday for her home in Gordonsville, Va., after a visit here with friends.

Yes, We Do Love Work.

Don't forget us, we are in town and we want to make you side walks. We make the best and treat you white. Others come and make big talk then go. We stay, WORK, and deliver the goods.

JOHN I. ASHURST.
Office Phone 437. Res. Phone 325.

Stockholders Meeting.

The annual meeting of the stockholders of Traders Bank of Lexington, Mo., for the election of directors for the ensuing year and the transaction of such business as may come before the meeting, will be held in the banking room of Traders Bank in Lexington, Mo., on Monday, January the eighth, 1912, between the hours of ten o'clock in the forenoon and two o'clock in the afternoon.

W. G. McCausland, Pres.
J. G. Crenshaw, Sec.

Stockholders' Meeting.

Notice is hereby given that the regular annual meeting of the stockholders of Wentworth Military Scientific and Literary Educational Company will be held at the office of the company in Wentworth Military Academy building in Lexington, in Lafayette County, Missouri, on Tuesday, the second day of January, 1912, at the hour of nine o'clock in the forenoon of that day for the election of directors and the transaction of such other business as may come before said meeting.

W. M. Hoge, President.
Sandford Sellers, Secretary, Lexington, Missouri, November, 29th, 1911.

CRENSHAW & YOUNG

Wants You To Try Their Remedy For Skin Troubles, Eczema, Pimples and Scalp Diseases.

First application relieves itching.

Realizing the growing distaste of the American people for the use of greasy ointments and oily liquid preparations for these diseases, Crenshaw & Young are now offering to the people of this city a mild soothing remedy "Brinkley's Sanador." A remedy which does not soil the clothing, stain the skin or clog the pores, but penetrates to the seat of the trouble, draws the germ life to the surface and destroys it. "Sanador" is a proven remedy—sold on its merits.

If you are troubled with Eczema, Pimples or any disease of the skin or scalp, they will supply you with "Sanador" under a guarantee of satisfaction or your money back.

WIVES HANDLE THE MONEY

Custom Started by a Professor in a Western University Spreads Through Entire Faculty.

If a woman likes the handling of her husband's money she ought to be married to a college professor. In a western university town one of the faculty, a few years ago, being absorbed in his scientific duties, began the practice of handing over to his wife his entire salary and whatever other moneys came to him from his writings, etc., and she did all the buying for the establishment, including the professor's wearing apparel and even books and pen points. He simply mentioned his wants, in case she had not anticipated them, and wife did the rest, allowing him whatever pocket money he needed from time to time. The practice was so successful that both husband and wife sounded its praises on occasions, and the custom spread at that university. It has now grown to such an extent that a professor in that institution would blush to be caught buying himself a scarf or selecting the material for his shirts.

Statistics do not know whether there are any unmarried professors on the list and no further information will be furnished on application. This precautionary measure is deemed necessary for the protection of the town, as it is not large and the boarding facilities are not sufficient to accommodate a sudden influx of the financial sex.

MAGAZINES OF FORMER DAYS

Editor Phillips Asserts That to Read Them Now With Interest Is Impossible.

There had been some conversation of magazines. Some one had breathed the usual sigh for the excellence of by-gone days. And John S. Phillips, editor of the American Magazine, entered an argument of defense.

"A good deal of this talk about the good old days of Longfellow makes me tired," he said.

"Have you ever tried to read the magazines of the days of Longfellow?"

"You haven't? Well, I have. And I couldn't do it."

"Take the Atlantic Monthly, for instance, in the days when Longfellow and Lowell and the others were writing for it. The contributions of Longfellow and Lowell were excellent."

"But you simply couldn't wade through 75 per cent. of the contents of those old Atlantics. They'd bore you to extinction."

"The old magazines were bound up in the interests of the old days—they reflected the times in which they were published. That is precisely what the magazines do now. That's what magazines have to do. On the whole, the publications of the last century weren't a bit better than the publications of today."

"If you have any doubts on the subject, just you try to read them. Try hard. You won't succeed!"

HARMONICA INDUSTRY.

Trossingen, in the Black forest of Germany, is the center of the foreign harmonica industry, where most of the world's "mouth organs" of the cheaper grade are made. One factory alone is said to employ several thousand hands; and the number of harmonicas turned out by all the factories there is enormous, amounting to almost a million annually. Although the United States imports a large number of the cheap German "mouth organs," the finer grades are made in this country, and these are held to be equal in every way to the more expensive instruments made abroad.

CHECK TELEPHONE ABUSE.

The telephone in a downtown office where there are many visitors daily, some of whom never have any real business to transact there, has become an expensive luxury. Hints thrown out by the office manager seemed to have no effect on the "telephone snipes," as they are termed, and in order to stop the abuse this notice was posted over the instrument: "City calls free to customers and others who can't afford to pay five cents."—New York Tribune.

VERY LOW.

Dolan—I see th' doctor at Rafferty's. Anybody sick?

Kelly—Rafferty is. His wife's had twins again!—Puck.
